Memo to File:

RE: Stauffer Vernal Mine
ACT/047/007

This minesite was visited on August 28, 1980, by Mary Ann Wright and D. Wayne Hedberg of the Division. No company representatives were available to accompany us on a tour of the tailings pond since it was 5:30 p.m. upon arrival.

Water samples were taken at the southeast end of the tailings pond and from the seepage water ponded below the base of the main tailings pond dam. Pictures were taken of the sampling sites and all areas of concern.

MARY ANN WRIGHT *MAW*
RECLAMATION BIOLOGIST

AND

D. WAYNE HEDBERG *DWH*
RECLAMATION HYDROLOGIST
